

Hill Road and State Highway 55 Intersection

Construction to begin in May

In the coming weeks, the Ada County Highway District (ACHD) will begin construction on the Hill Road and State Highway 55 intersection project. Construction is scheduled for completion in late June.

The project includes adding right turn lanes on State Highway 55 at the north and southbound intersection approaches and westbound Hill Road, and installation of a traffic signal, pedestrian ramps and crosswalks. Constructing a traffic signal at this intersection will provide safer and protected turning movements for motorists and will reduce the delay for vehicles entering onto State Highway 55 from Hill Road.

CONSTRUCTION IMPACTS

Crews will work daytime hours, generally between 7 a.m. and 7 p.m. Weekend work is possible, however work will not be permitted over the Memorial Day weekend on State Highway 55. Impacts during construction include, but are not limited to, general construction noise, large equipment, lane restrictions, possible delays, reduced speeds, flaggers directing traffic and ground vibration.

We regret any inconvenience that this work may cause you and appreciate your patience as we improve safety and reduce delays at this intersection. If you have questions about the construction schedule, please contact Justin Bledsoe, ACHD Construction Supervisor at 387-6283 or e-mail projects@achdidaho.org.
