

Bike Lane Alternatives

Four alternatives are being reviewed to add east-west bike lanes through downtown Boise. Each of these alternatives were reviewed and evaluated with respect to a number of considerations.

A high level comparison of each alternative is provided in the table below.

		Roadway changes	Bicycling comfort on Main & Idaho streets	Change in driving times (during current peak travel times)	Loss of parking on Main & Idaho streets	Cost
		No Build (Bike Lanes on Jefferson Street)	Removes some parking on Jefferson Street	Low level of comfort	No change	0 Spaces (100 spaces on Jefferson Street) No additional costs
You Are Here! 	Bike Lanes Protected by Parking on Main Street & Idaho Street	Removes motor vehicle travel lane on Main & Idaho streets	High level of comfort	<u>Traveling between 16th St & Ave B</u> Main St: AM: +60 Seconds PM: +18 Seconds Idaho St: AM: +18 Seconds PM: +66 Seconds	~37 spaces	~\$640,000-730,000
