

March 2010

Sidewalk to be constructed on south side of Malad Street starting May 17th

The Ada County Highway District (ACHD) is pleased to announce that sidewalk, curb and gutter will be constructed on the south side of Malad Street between Kerr and Shoshone streets. The project will start on or about May 17th and is anticipated to be complete by June 7th.

PROJECT DESCRIPTION

- Construct sidewalk, curb and gutter on the south side of Malad Street.
- Improve/repair pedestrian ramps to meet current Americans with Disabilities Act (ADA) standards.
- Replace pavement on the south side of Malad Street within the construction limits.

Construction Impacts

During construction Malad Street will remain open to traffic. However, on-street parking will be restricted on the south side of the street within the construction limits during the project. When the project is completed, on-street parking can resume.

Once the new concrete curb and gutter have been poured and once again after the sidewalk is poured, we ask that residents not use the new concrete for at least four days.

Background

This project was requested through ACHD's Community Program: Curb, Gutter and Sidewalk Projects in 2005. The applicant requested sidewalks only on the south side of the street.
