

ALTERNATIVES BEING CONSIDERED

Quadrant Intersection

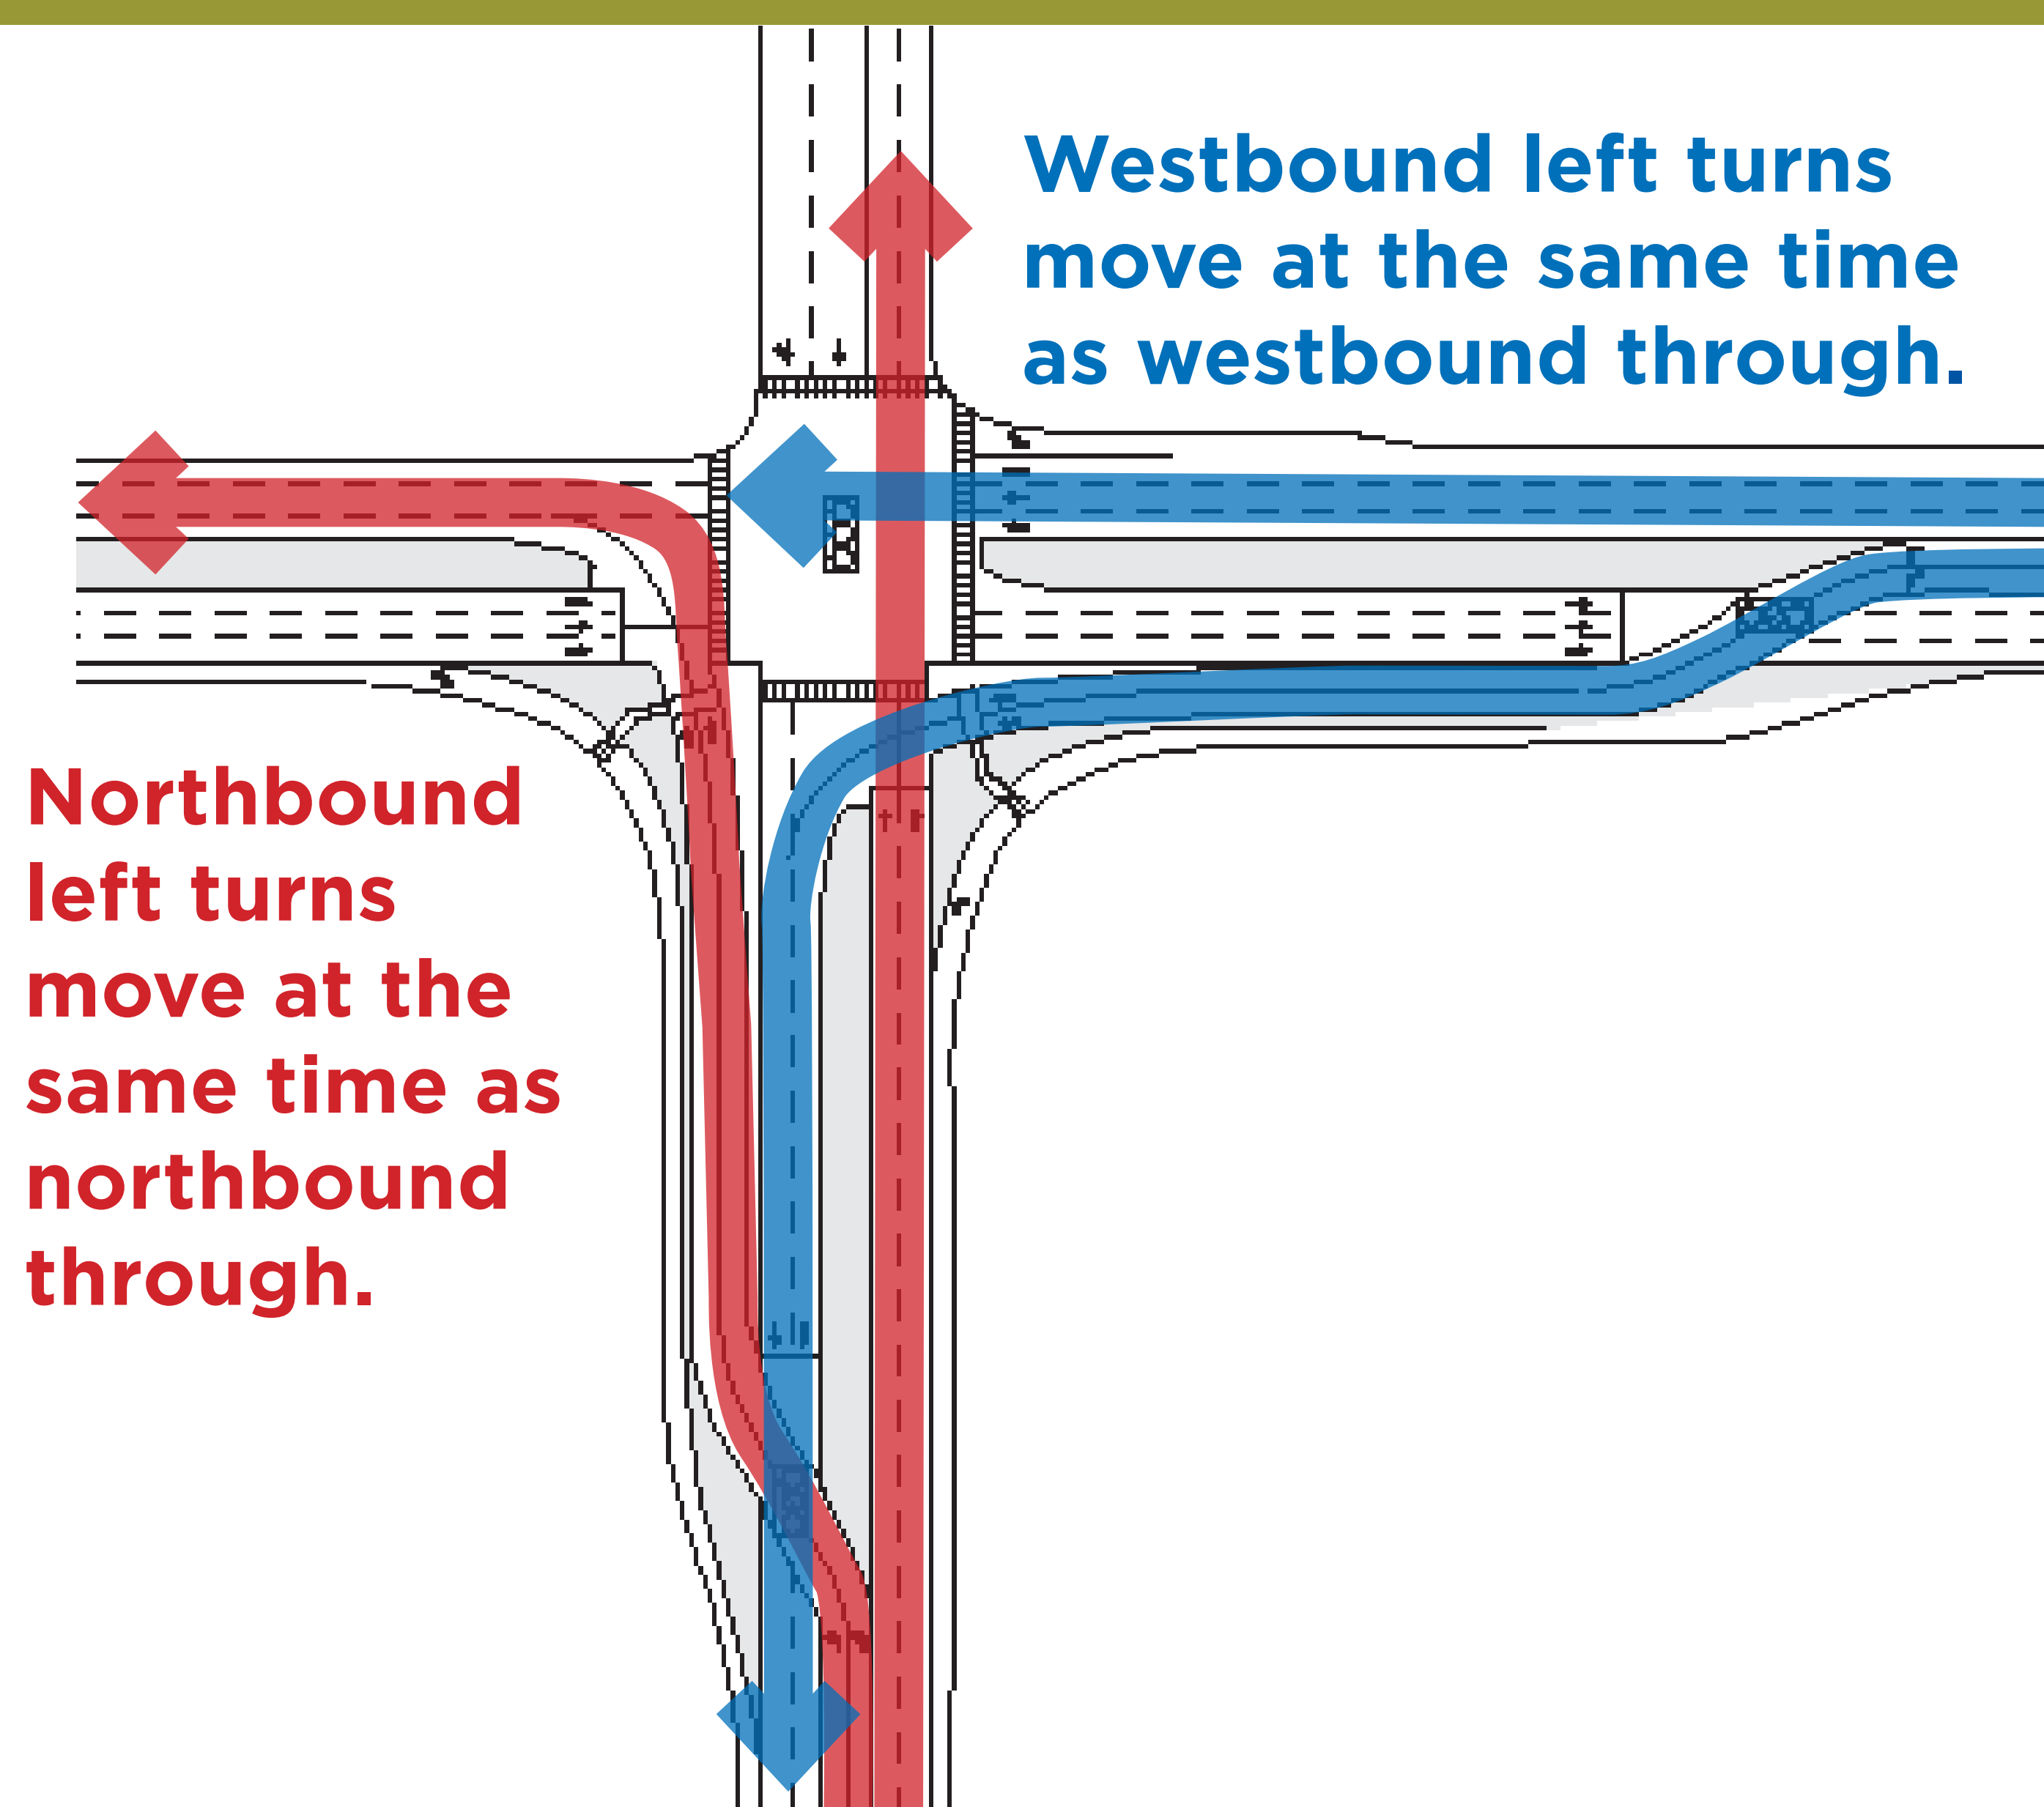

All of the left turns are removed from the Glenwood Street/State Street intersection and rerouted to occur as right turns and left turns via four signalized intersections.

- **Why?** Removing left turns from the intersection improves operations and safety

Where can you find this type of intersection?

- Lehi, UT and Bloomfield, MI

Displaced Left Turn (Continuous Flow Intersection)

One or more of the left-turns are moved to the other side of the opposing through traffic at the Glenwood Street/State Street intersection.

- **Why?** Left-turns proceed at the same time as the through movements resulting in improved operations and safety

Where can you find this type of intersection?

- Salt Lake City, UT and Loveland, CO
