

# ALTERNATIVES BEING CONSIDERED

## Conventional Intersection

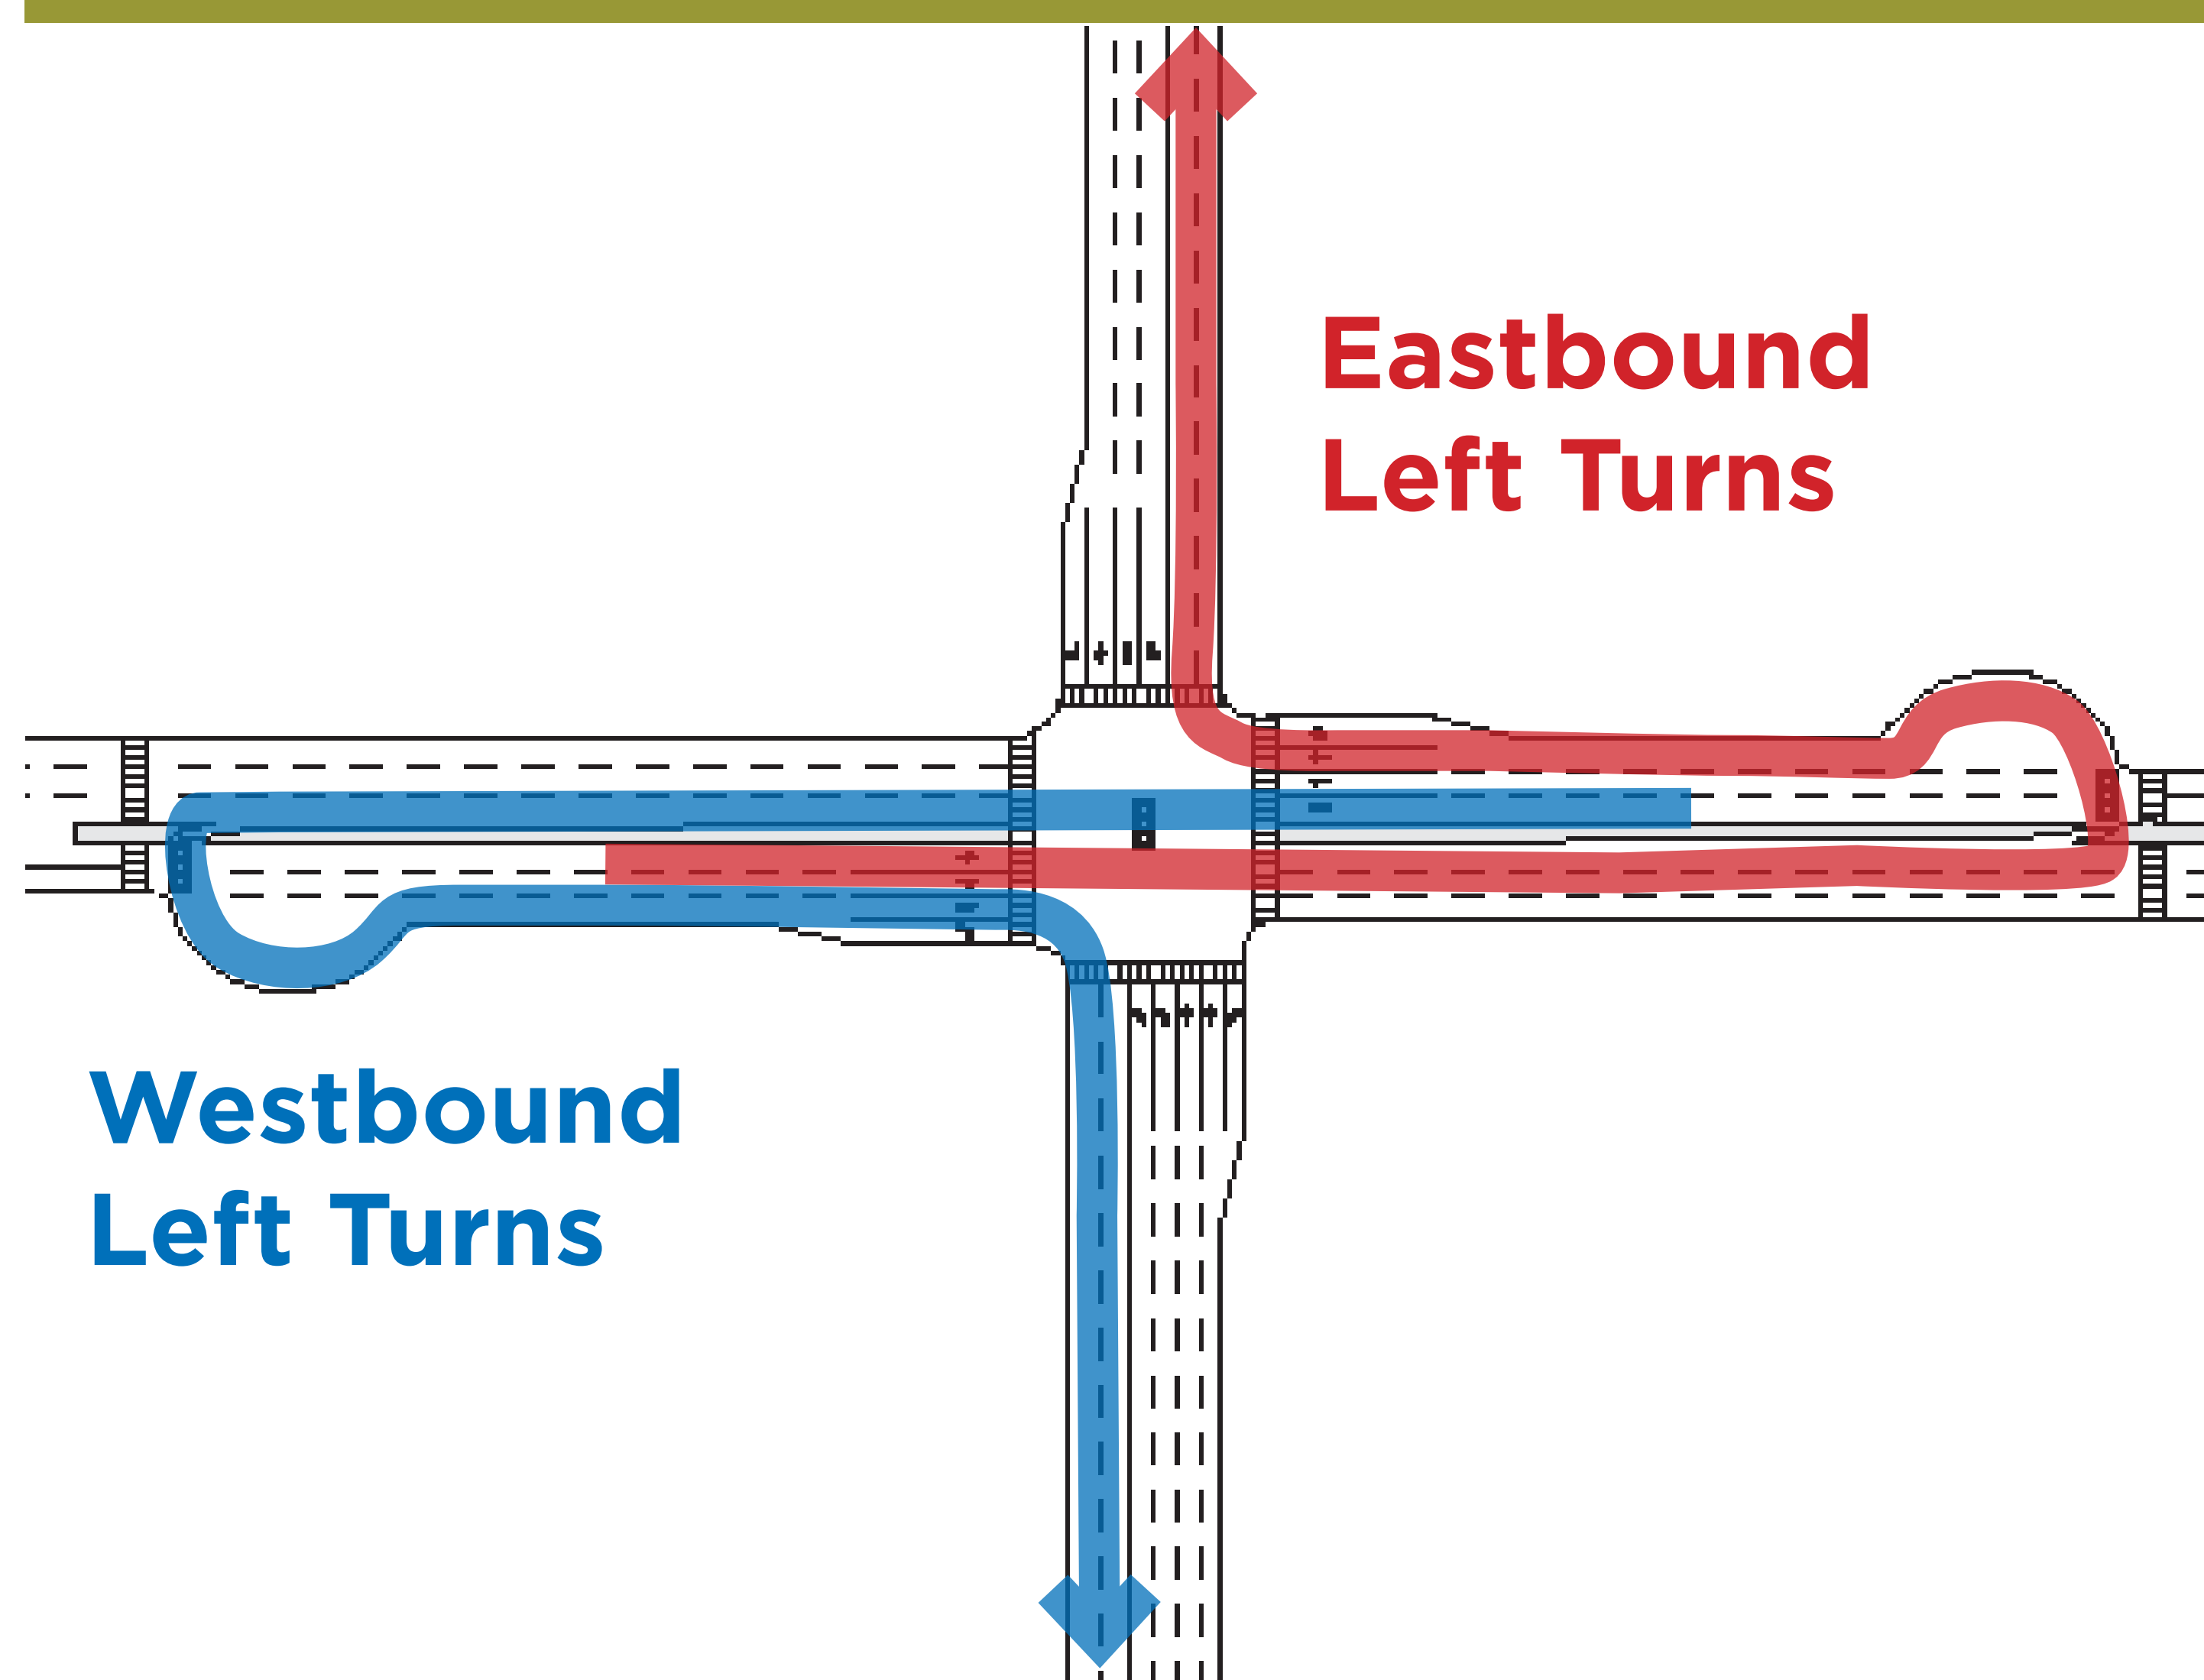

Additional turn and through lanes are added to the existing signalized intersection of Glenwood Street/State Street.

- **Why?** To accommodate more vehicles through the intersection resulting in improved operations.

### Where can you find this type of intersection?

- Current intersection at Glenwood Street and State Street

## Median U-Turn (ThrU-Turn)

The eastbound and westbound left turns are removed from the Glenwood Street/State Street intersection and rerouted to another intersection as a signalized U-turn.

- **Why?** Removing left turns from the intersection improves operations and safety

### Where can you find this type of intersection?

- Salt Lake City, UT and Tucson, AZ
- Planned project at State Street/Veterans Memorial Parkway/36th Street intersection in Boise, ID
