

Shoshone Street Bikeway

Overview

The Ada County Highway District (ACHD) is working on a design for the Shoshone Street Bikeway. The Shoshone Street Bikeway aims to connect the south and north sides of the Central Bench Neighborhood via a low stress bikeway, providing access to Crescent Rim and Downtown Boise to the north.

Why Shoshone? Shoshone Street was identified as a potential bikeway in the 2012 Boise Central Bench Neighborhood Pedestrian and Bicycle Plan. It is also included in the 2018 Roadways to Bikeways Bicycle Master Plan Update.
