When will projects be built?

Several factors, including location, development activity, cost, and complexity are evaluated prior to programming projects for construction. The Integrated Five-Year Work Program* is updated annually to add new projects to ACHD's schedule and budget.

Who Pays for Projects?

- ACHD's Community Program funds approximately \$6-8 million sidewalk and bicycle projects a year from:
 - ACHD's general fund
 - Vehicle registration fees
- Federal, state and city grants are also sometimes available for funding.

*The Integrated Five-Year Work Program sets forth the strategies, projects, and priorities which ACHD will pursue over the next 5 years. Identified projects cycle through the program over the course of several years.

Projects generally do not require additional financial contribution from the neighborhood.
