

Tonight's Meeting Purpose

The project team has narrowed down the corridor alternatives to: **C2-3** and **C6-8**. Each alternative includes the preferred streetscape concepts and intersection treatments.

The project team would like you to:

- Tell us which corridor alternative you prefer
- Comment on the draft pedestrian and bicycle network

The display boards use the following icons.

This icon represents the concepts that have been carried forward through the alternative development process.

This icon represents the consultant team's recommendation for the preferred corridor alternative.

Thank you for your input on this project!
