

Garden City Implementation Zones

⇒ The plan organizes the City into five zones based on neighborhood and natural boundaries as well as unique identity.

⇒ Each zone is a focus area for:

- ACHD project implementation.
- Garden City Comprehensive Plan update.
- Creating a unique identity for each neighborhood.

⇒ Many projects will be constructed by new development, over time.

We want your input on priorities in each zone, whether it's in your neighborhood or a zone you frequent on foot, by bike or by car.

Tell Us Your Priorities

- ⇒ Review the proposed projects in each zone.
- ⇒ Determine which three (3) projects you prefer in each zone.
- ⇒ Rank them by placing the appropriate dot next to each of your three projects (see box at right).

Using your dots
