

How to use: motorists

- 1 Slow down
- 2 Yield to pedestrians in crosswalks and motorists already in roundabout
- 3 Merge into traffic flow when it is safe
- 4 Signal your turn and yield to pedestrians in the crosswalk when exiting the roundabout

REMEMBER!

Avoid stopping in a roundabout, unless yielding for a pedestrian

KEEP IT CLEAR

If an emergency vehicle approaches, exit the roundabout immediately and then pull over.

How to use: pedestrians

- 1 Cross only at crosswalks and always stay on the designated walkways
- 2 Watch for cars entering and leaving the roundabout - you have the right-of-way, but proceed carefully
- 3 Splitter islands allow you to cross one section at a time
- 4 Never cross to the center island

REMEMBER!

Your best protection is awareness

How to use: bicyclists

Cyclists can ride with traffic inside the roundabout or use the sidewalk, always yielding to pedestrians.

Riding with traffic

- 1 Establish position and take center of the lane as you approach
- 2 Follow the same rules as vehicles and yield as you enter the roundabout

Using the sidewalk

- 1 Use the pedestrian ramp on the right and move onto the sidewalk
- 2 Dismount if sidewalk is too congested to ride safely
- 3 Re-enter roadway/bike lane using appropriate pedestrian ramp
