Project Description

- Realign Collister Drive to the west with dedicated right and left turn lanes onto State Street
- Widen State Street within project limits and add medians were necessary for safety
- Include curb, gutter, sidewalk and bike lanes
- Add a westbound transit stop
- Construct an improved access point to the Greenbelt
- Add additional crosswalk across State Street
- Enclose sections of the Farmers Union Canal within the project limits to accommodate widened roadway, sidewalks and bike lanes on south side

Project Goals

- Improve safety for all users - motorists, pedestrians, bicyclists and transit riders
- Engage stakeholders through a public involvement process
- Coordinate adjacent land uses (current and future) with the intersection design

What is Next?

- Review and address comments received from the public
- Finalize environmental evaluation (2015)
- Finalize design (2016)
- Begin purchasing right-of-way (2016/2017)
- Construction is scheduled for fall 2018
