

Description

1

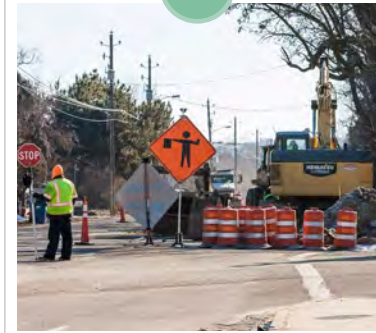

- Construct curb, gutter and sidewalk on both sides of Camas Street within the public right-of-way to match existing
- Move existing crosswalk slightly to east & install bulb-outs for traffic calming

WHAT IS A BULB-OUT?

A traffic calming tool that extends the sidewalk, shortening the crossing distance for pedestrians.

2

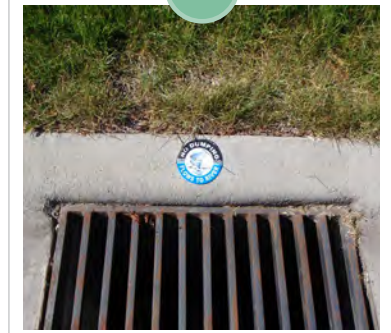

- "Reclaim" street (similar to rebuilding street, but less extensive)
- Replace existing speed humps & add one more

3

Retain on-street parking on both sides of the street

4

Improve storm drain system and relocate private owner irrigation as needed

PROJECT PURPOSE

- Improve pedestrian safety and connectivity
- Provide a safe route to school for children walking to local schools
