

#2A - Two-Way Conversion

Potential Benefits

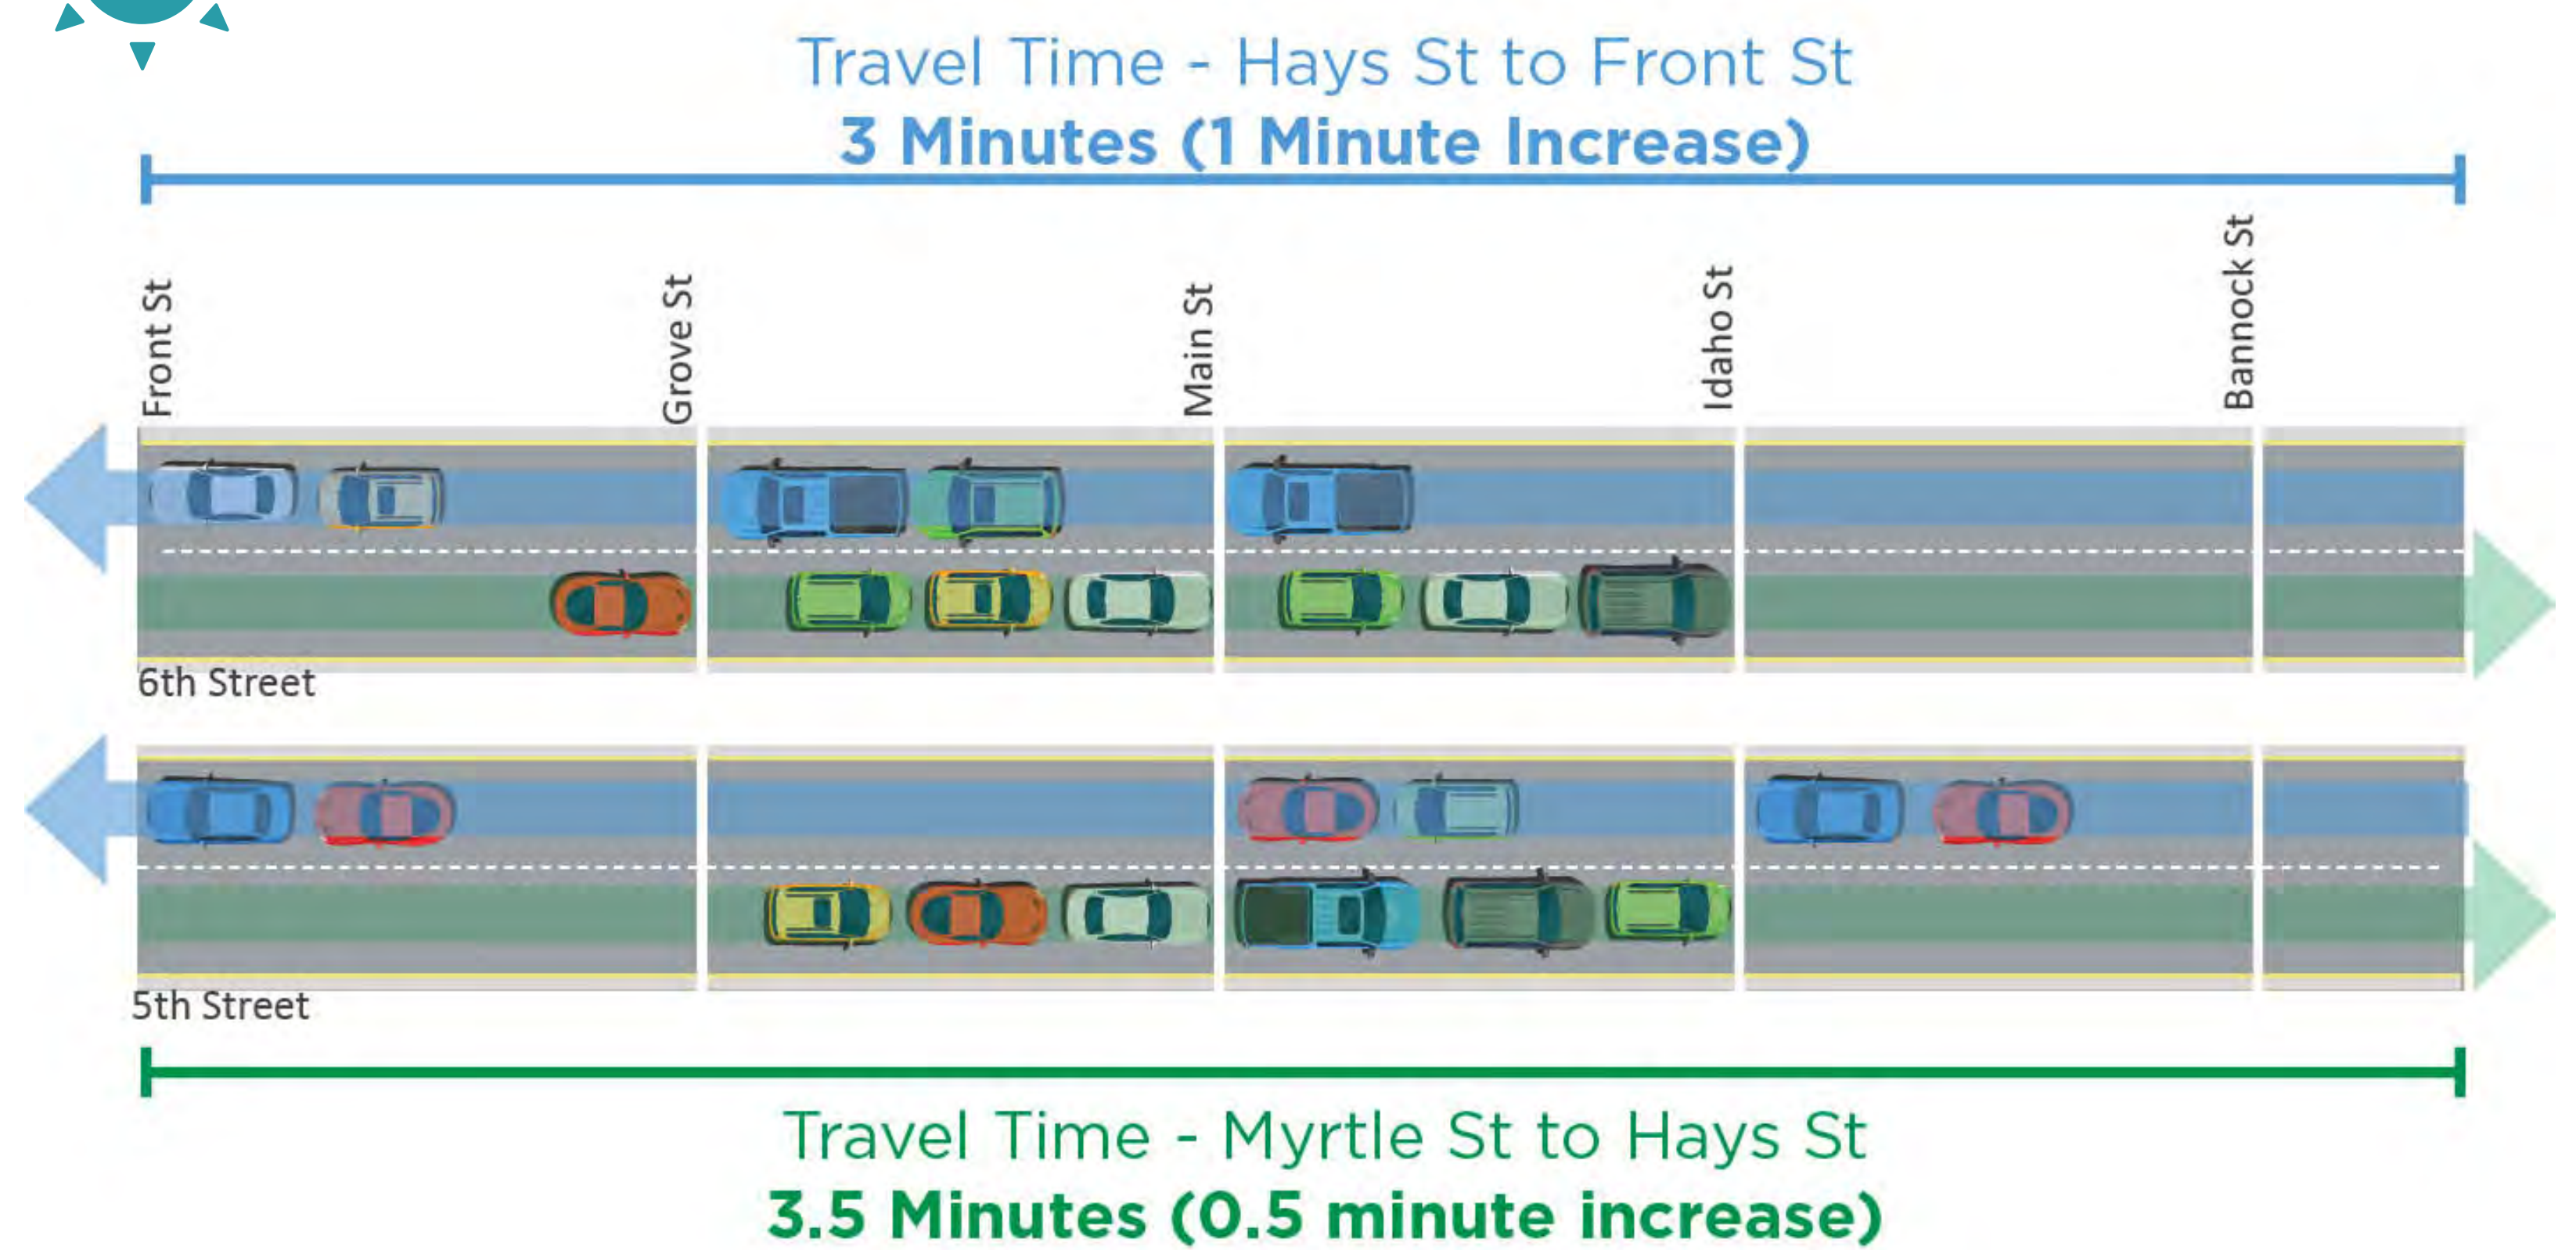

- Reduces vehicle delay and queues at 6th Street & Front Street during peak PM travel
- Ease of navigation and wayfinding for visitors
- Reduction in distance cars have to travel

Potential Trade-Offs

- Increase delay and travel times for off-peak directions
- Increase congestion at some intersections
- Loss of about 54 on-street parking spots
- Increase existing delay at 5th Street/Fort Street/Hays Street intersection

AM Peak Congestion after Two-Way Conversion

PM Peak Congestion after Two-Way Conversion
