

Project Description

- Identify a new Orchard Street alignment to connect with the Lake Hazel Extension south of Gowen Road.
- Determine the appropriate roadway cross-section, including bicycle and pedestrian facilities.
- Evaluate what type of intersection should be designed for new Orchard Street/Gowen Road /Lake Hazel Extension intersection.
- Determine future connections between the existing and re-aligned Orchard Street, as well as side streets such as Diamond Street, Aeronca Street, and Dorman Street.
- Identify modifications to the existing Orchard Street/ Gowen Road/Harvard Street intersection.

Project Purpose

- Provide a roadway that meets the needs of all users
- Provide a direct connection to the Lake Hazel Extension
- Support the City of Boise's Airport Master Plan
