

STORM WATER POLLUTION HOTLINE

Need to report stormwater pollution? Please call **208-395-8888**

The storm drain system in Ada County is not connected to the municipal sewer system. Stormwater is conveyed directly to groundwater or surface waters such as the Boise River. **Pollutants that enter the storm drain system can negatively impact the quality of our waterways.**

One tool ACHD utilizes to combat stormwater pollution is the Stormwater Pollution Hotline. The Stormwater Pollution Hotline is a community response tool that is available 24/7 to direct your stormwater concerns to the appropriate entity for follow-up action. **You can help keep our waterways clean by reporting stormwater pollution to the Stormwater Pollution Hotline at 208-395-8888.**

Report Illegal Dumping!
208-395-8888

Thank you for your assistance in keeping Ada County waters clean. **REMEMBER:**

ONLY RAIN IN THE STORM DRAIN.
